

Department of Neurology

FELLOWSHIP OPPORTUNITY

2011, 2012 & 2013

Program Director: Dileep R. Yavagal, MD

Interventional Neurology Fellowship

Our Interventional Neurology fellowship is a very competitive 2 year program in conjunction with the Department of Neurosurgery. There are two Neurointerventional Attendings who will supervise the training of two Neuroendovascular fellows (from Neurology, Neurosurgery and Radiology backgrounds). Our team performs 500-600 Neuroangiography and Neurointerventional procedures a year with a healthy mix of hemorrhagic and ischemic stroke, head and neck and spinal interventions.

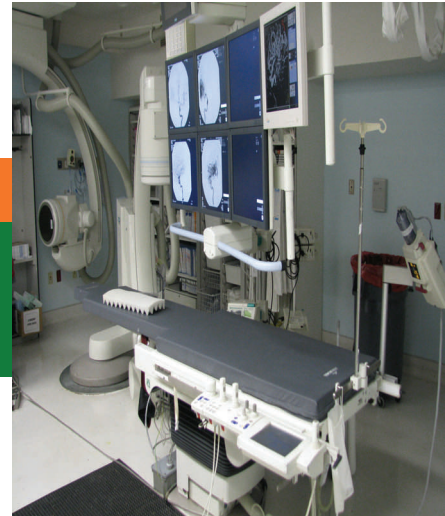

Opportunities and Requirements

For Interventional Neurology applicants one year of Vascular neurology or Neurocritical Care fellowship is a pre-requisite to be eligible for the Neuroendovascular

Services

The Interventional Neurology Division works in collaboration with the Department of Neurosurgery's Endovascular Surgery physicians to provide comprehensive care and treatment to patients with complex neurovascular diseases, including aneurysms, arteriovenous malformations and others. Our physicians are part of a cerebrovascular team that performs Neuroendovascular procedures such as stent placement for cervical or intracranial arteriosclerotic disease using balloon and stent technology to achieve the most favorable outcomes in the treatment of our patients.

Our Neuroendovascular service, located at Jackson Memorial Hospital, is the only one in Miami-Dade County equipped with two Neuroangiography suites. There is also three-dimensional imaging available onsite. The cerebrovascular team utilizes cutting edge devices such as the MERCI Clot Retriever, PENUMBRA Stroke System and GDC Coils among others in the treatment of acute stroke. Postoperative patients receive care at one of Jackson Memorial Hospital's specialized units, the 24-bed neurosurgical intensive care unit or 8-bed stroke unit.

Requirements to Apply:

1. Application Form
2. Letter of intent
3. Curriculum Vitae
4. Three letters of Recommendation (1 Program Director proving good standing and two faculty)
5. ECFMG Certificate (if applicable)
6. USMLE Scores
7. Diploma/ Certification from Medical School

Documents should be sent to:
